Low Corn King

Wide Spread From a Narrow Box

THE Low Corn King is the real spreader success of the year. At the San Francisco Exposition, the Low Corn King won a Grand Prize, the highest possible award.

You want a spreader that is narrow; not clumsy, wide, and hard to handle. You want it to pass through tight places when necessary, to go in barn doorways for easy loading, narrow for easy handling in your fields. Still, you want a real wide-spreading spreader, that will cover a double strip evenly, so as to cut in half your unloading time and traveling distance.

Here is the answer. The Low Corn King has a box only 45 inches wide, yet it spreads the manure in a finely pulverized strip 8 feet wide or better. Come in and see for yourself. You cannot be disappointed.

Home from Town and the House is Warm

That long drive through the biting zero weather will be lots pleasanter if you know that there is a Caloric Pipeless Furnace ready to give you a warm reception. You can step from the icy outdoors into comfortable rooms and be warm in a jiffy.

The whole house is heated from only one register—no muss and fuss of stoves and ashes here and there in the living rooms. Moreover, it consumes less fuel, because the

More Heat **PIPELESS CALORIC FURNACE** Less Fuel

The Original Patented Pipeless Furnace

heats economically by a scientific method, following nature's way.

Heats without pipes and through only one register, thereby saving the expense of costly installation. Easy to install in old houses as well as new, because no holes need to be cut in the walls for heat pipes.

The Caloric permits you to store perishable food in the cellar, because it radiates no heat there.

HEALTHFUL HEAT

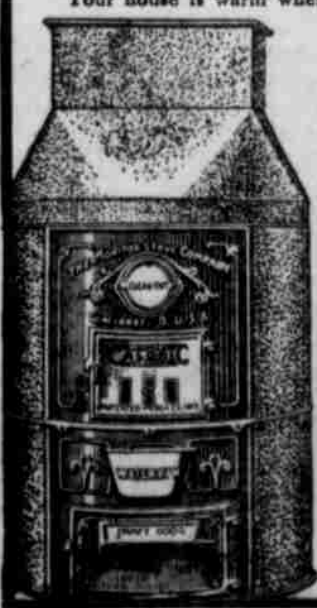

Your house is warm when you go to bed, and warm when you get up.

Danger of colds is reduced because every room is uniformly heated to a moist, balmy temperature.

Saves from 1/2 to 1/3 the fuel. Because the warm air reaches your rooms by direct circulation. Our double-ribbed firepot produces perfect combustion, thus insuring thorough burning of the fuel and a much greater heating service. Burns any furnace fuel that is most convenient for you to secure—hard and soft coal, wood, lignite, coke or gas.

GUARANTEED

The Monitor Ironclad Guarantee, issued with every Caloric sold, assures absolute satisfaction to the purchaser. Let us show you a copy of it and give you the names of Caloric users near you. Make a special point of investigating this remarkable fuel-saving furnace TODAY by getting our free book.

After the Moul— EGGS

REMEMBER, going through the moult is like going through a long spell of sickness. To force out the old quills and grow new feathers saps a hen's vitality.

If you expect your hens to be fall producers and winter layers, then feed them Poultry Pan-a-ce-a during and after the moult.

Dr. Hess Poultry Pan-a-ce-a

will start your pullets and moulted hens to laying

It contains Tonics that put your moulted hens in fine condition—Tonics that tone up the dormant egg organs—Iron that gives a moulted, run-down hen rich, red blood and a red comb. It contains internal antiseptics that destroy disease germs that may be lurking in the system. No disease where Pan-a-ce-a is fed. It pays to feed Pan-a-ce-a regularly.

It brings back the singing—it brings back the scratching—it brings back the cackle. That's when you get eggs; and it's eggs you want—fall eggs, winter eggs—when eggs are eggs.
